

FSGS Research Study
Thank you for your participation.

Instructions for submitting **blood sample(s)**:

1. Please us the enclosed (2 per person) for the blood collection.
2. Clearly identify each tube (person's name and date of birth) on the tube labels.
3. Keep the blood at room temperature at all times.
4. Place the tubes in the foam carrier and then into the cardboard mailer
5. Place the mailer/box into the envelope provided for return shipment
6. Please send the samples back as quickly as possible to our lab
7. Make sure to fill out all study documents and return them in the same envelope as the blood sample(s).

Let us know if you have any questions regarding this process.

Thank you!
