

FSGS Research Study

Thank you for your participation.

Instructions for submitting urine sample(s):

1. Please use the enclosed tube (with the blue cap) for the urine collection.
2. Clearly identify each tube (person's name and DOB) on the tube label if not already labeled.
3. Complete the urine sample wherever is most convenient for you (does not need to be done at a medical center or laboratory).
4. Return the urine container into the shipping containers.
5. Please send the samples back as quickly as possible to the lab.
6. Make sure to fill out all study documents and return them in the same envelope as the urine sample(s).

Let us know if you have any questions regarding this process.

Thank you
